**SING LIKE THEY  
CAN HEAR US**

*Singing for Syrians is a nationwide campaign from the Hands Up Foundation encouraging people across the UK to hold or attend music events to raise funds and awareness for some of Syria's most vulnerable.*

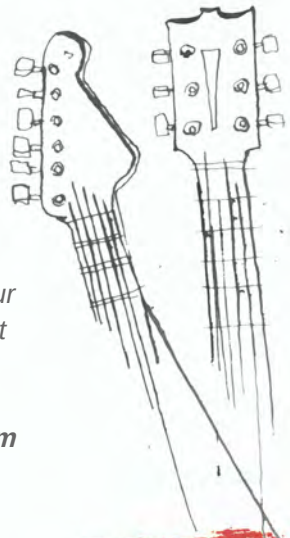

**We are currently supporting two projects that we are particularly proud of:**

**Funding salaries and medicine at a Primary Health Clinic in the east of Aleppo, Syria**

Providing vital health services to the local community including vaccinations, childhood immunisations, and psychosocial services. On average, the team carry out 800 consultations a month free of charge. In 2019, the clinic was bombed on three separate occasions and each time managed to get back up and running within ten days.

**Education for 300 children in the Bekaa Valley, Lebanon**

This project aims to provide Syrian refugee children with basic literary and numeracy skills required for formal education, providing hope for a better life and a brighter future. The project also provides livelihoods for teachers and support staff, employed from the local refugee community.
